

SEE HOW SPONSORING CHANGES LIVES

Meet Patience, a former sponsored child

"The letters from my sponsor inspire me to work hard and they help me to reach my goal to attend the University in Harare Zimbabwe. I am learning German because my sponsor is from Germany and one day I hope to visit my sponsor there."

- Patience from Zimbabwe

Meet Brigitte, a sponsor

"Sponsoring a child has been very worthwhile. I have seen firsthand how my sponsorship money is having an impact and changing an orphan girl's life forever."

- Brigitte Stehlik from Germany

Meet Celia's family

"Attending the Work For Love preschool has been a life-changing experience to my child. Knowing that our child is being well educated gives us peace of mind to pursue our careers. I am grateful to the sponsors overseas who make this possible."

-Celia from Masiphumelele

When you sponsor a child, you empower an entire community to lift themselves out of poverty.

Sponsoring a child is a rewarding experience.

You have the chance to help entire families develop the skills they need to create positive change for generations. Your monthly donations will help fund the Family Centre which caters to the specific to the needs of our families, covering the areas like holistic education, skills development, job creation and child care and referral to other organisations as needed. Your sponsored child acts as a community representative and won't receive special treatment over other children and their families.

When we develop our programmes, we involve the family and community members from the start, ensuring we understand – and address – any challenges they face. We'll combine your monthly donation with our other sponsors' so that families have the best chance to overcome poverty in the long term.
